For more details please go [here](#).

Center News

The Bioethics Graduate Program (at Wake Forest University) is currently accepting applications for the 2016-2017 academic year.

The Program provides an educational opportunity in bioethics for current and future professionals, including health care providers, researchers in biomedicine and the life sciences, lawyers, and professionals in health and research administration, and the biotechnology industry. The program is attractive to working professionals as well as students in pre-health, pre-law, and humanities programs who will continue onto professional schools and/or doctoral programs. The students in the Bioethics program bring a diversity of academic, employment, and life experiences to the classroom. The program faculty is nationally recognized in the field of bioethics.

The small class sizes and versatile curricular options enable students to tailor the program to their individual interests. The program emphasizes face-to-face interaction, promotes scholarly and interpersonal communicative capabilities, and fosters close relationships among students, faculty and alumni.

The Graduate Program offers a Master of Arts degree and three Graduate Certificate options, as well as several joint degree options. The program is flexible for both full and part-time study. For more information, including program philosophy, course and faculty listings, and application procedures, please contact [Vicky Zickmund](mailto:Vicky.Zickmund@wfu.edu), (336-716-1499) as well as visit the website:
