CENTER *for* BIOETHICS, HEALTH & SOCIETY

Upcoming Events

NOVEMBER 19 : THE HASTINGS CENTER

Dr. Anthony Fauci,

Public Trust in Science,

This is part of the Hastings Center's series, "Securing Health in a Troubled Time: Equity, Ethics and the Common Good".

Dr. Anthony Fauci will explore the ethical issues raised by the erosion of trust in science in a new virtual discussion hosted by The Hastings Center. The nation's top infectious diseases official and Hastings president Mildred Solomon will look at how we can improve public understanding of complex issues in ways particularly suited to problem-solving and respectful dialogue. What is the proper balance between safety and speed when developing new therapeutics and vaccines? And who should decide when scientists and members of the public disagree?.

Please register [here](#).

11:00-11:45 am Eastern Time

Center News

With great sadness, we share that we lost our friend and colleague, Professor Richard Robeson, on October 30th, 2020. Prof. Robeson was on the faculty in the Bioethics Graduate Program and Adjunct Professor of Practice in the Department of Communication. We will share information about an event honoring his work in bioethics at a later time.

Dr. Larry Churchill's Lecture from the 29th September, "Ethics for the Anthropocene", is now available for viewing [here](#).

Spring and summer faculty publications and scholarly work include:

Nicholas Colgrove, PhD:

Frozen Embryos and the Obligation to Adopt. *Bioethics* 34(8): 857-61.

Artificial Wombs, Birth, and 'Birth': A Response to Romanis. *Journal of Medical Ethics* 46(8): 554-6.

Christine Nero Coughlin, JD:

Modern Legal Scholarship: A Guide to Producing and Publishing Scholarly and Professional Writing, [Carolina Academic Press](#). This book guides students through the scholarly writing process--from an idea's inception to the final publication of an article. It provides a step-by-step process to exploring and researching an idea, crafting a meaningful thesis, drafting solid scholarly analysis, submitting and publishing the work, and promoting the work on social media.

Stephannie Seaton, PhD, Student: *Moderator for Panel Presentation - Misinformation in a Health Information Pluralist Post-Truth World*

Bioethics Graduate Program

The Bioethics Graduate Program at Wake Forest University is now accepting applications for Summer and Fall 2021 admission.

The Program provides an educational opportunity in bioethics for current and future professionals, including health care providers, researchers in biomedicine and the life sciences, lawyers, and professionals in health and research administration and the biotechnology industry.

The program is attractive to working professionals as well as students in pre-health, pre-law, and humanities programs who will continue onto professional schools and/or doctoral programs. The students in the Bioethics program bring a diversity of academic, employment, and life experiences to the classroom. The program faculty is nationally recognized in the field of bioethics.

The small class sizes and versatile curricular options enable students to tailor the program to their individual interests. The program emphasizes personal interaction, promotes scholarly and interpersonal communicative capabilities, and fosters close relationships among students, faculty and alumni.

The Graduate Program offers a Master of Arts degree and three Graduate Certificate options, as well as several dual degree options. The program is flexible for both full and part-time study.

For more information, including program philosophy, course and faculty listings, and application procedures, please contact [Vicky Zickmund](#), (336-716-1499) as well as visit the [website](#).

Opportunities

Funding:

The **Center for Bioethics, Health & Society** is accepting, on a rolling basis, applications for small grants to support Bioethics activities.

For information and the application form for this funding opportunity, please see the CBHS Funding Application on the Center's website.

Donation Button:

There is now a donation button online on our website. This an opportunity to give to the [Center for Bioethics, Health and Society](#), or directly to the [Bioethics Graduate Program](#). Thank you for considering Wake Forest Bioethics in your annual giving campaign!

We are happy to announce "Bioethics at WFU" websites have been completely updated. We hope these sites illustrate and share information about how Bioethics is being explored and studied at Wake Forest University.
